Dear Jim -

25X1X7

We were pleased to learn from your letter of 28 August 1957 () that our publication regarding personalities in the Soviet Aircraft Industry has been useful to your research people. In order to reflect its greatest value, we agree also that the information should be maintained on a current basis. We plan to allot time to this project in future programs.

Your offer to assist in this work is appreciated and welcomed, and I suggest that () discuss this with our people during her next visit here.
